

SEO Manager/Exec

Job Description

We are looking for an exciting and dynamic person to join our team, to work on UK and international SEO projects for existing and new clients. We're a young, outgoing team with a passion for all things digital marketing. With great people and technology, we already work with some lovely big brand clients and it will be up to you to help us continue that success!

The role will cover:

- Technical site analysis
- Back link strategy and implementation
- Directory submissions and revisions
- Internal link optimization
- Keyword research
- Content development
- Monitor, track, and report on natural search metrics, including trend analysis
- Social media integration
- Site change implementation
- SEO strategy development

Ideal Background:

- 1 + years of relevant SEO experience.
- Strong HTML, CSS and PHP skills
Self motivated, detail oriented and able to prioritize daily work efficiently
- Degree educated preferred

Package details:

Salary: up to £35k depending upon experience
Based in W1

If this is definitely you, then what are you waiting for?
